**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**IN THE CLAIMS:**

Claim 45, line 2, deleting a first "comprising," between "material" and "comprising:".

2. The following is an examiner's statement of reasons for allowance: the prior art of record neither anticipates nor renders obvious all the limitations recited in the amended base claims. Specifically, the combination of a method of reducing oxidation of a conductive material comprising the steps of reacting a nitrogen containing composition with an upper surface of the conductive material to form a chemical compound more resistant to oxidation than the conductive material and forming a second dielectric layer over the conductive material and the first dielectric layer and adhering the second dielectric layer to the conductive material, wherein reacting the chemical composition and forming the second dielectric layer occur simultaneously, as recited in the base claims 31, 34, 51, and 52. Or the combination of a method of reducing oxidation of a conductive material comprising the steps of reacting a nitrogen-containing composition with an upper surface of an unoxidized electrically conductive material to form a

passivation layer and adhering a dielectric layer to the electrically conductive material such that the passivation layer (or chemical compound layer) is substantially absorbed by the dielectric layer, as recited in the base claims 40 and 45.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
